

BENCHES: EMME SUNBED

| Category: [BENCHES](#)

PRODUCT DESCRIPTION

Designer: **Stéphane Chapelet**

Designed by Stéphane Chapelet, EMME SUNBED bed has sinuous and elegant shapes but at the same time with a decidedly modern cut. Also suitable for new urban contexts, in parks, along the seafront, EMME sunbed is produced using the combination of steel for the frame and exotic wood for the internal slats.

Steel is treated with a sandblasting, cataphoresis cycle and finally PP powder coated with the RAL color of your choice. The wood used is Iroko or Okumè, treated with natural water-repellent oils resistant to UV rays.

Dimensions

Height of the seat: **390 mm**
Length: **2240 mm**
Depth: **620 mm**

Materiaux: **steel / wood**
