

TREE GRILLES: FARFALLE

| Category: [TREE GRILLES](#)

PRODUCT DESCRIPTION

Designer: **Lab23**

The tree grates FARFALLE are made in steel, later cold galvanized and polyester powdercoated. The laser cuts available offer a variety of decorations, drawings and dimensions. The smaller treegrates, FARFALLE 735mm, are made of 4 elements: 2 for the tree grates and 2 for the perimeter frame. The tree grates FARFALLE 990mm are made of 6 elements: the upper grate is divided in 4 parts, where as the frame is divided in 2 parts. The bigger grates FARFALLE are made of 8 elements: both the upper grate and the frame are divided in 4 parts. The upper part of the grate is the result of the steel sheet's cut (thickness 50/10), where as the frame is made in steel sheet (thickness 30/10). If present, the frame is fixed to the ground through specific bolts (not provided) to be inserted in ovals 12x18 mm. The tree grates are fixed to the ground (or to the frame, if included) through specific countersunk holes M6.

Materials: **steel / corten**
