PRODUCT DESCRIPTION

Designer: [Urban Design](#)

The ashtray Speed is made of steel EN10111DD11 (thickness from 15/10 to 20/10). The ashtray is provided with a door and a lock that opens on the front. Inside the ashtray a box in galvanized steel EN10346DX51D+Z is placed (thickness 8/10, provided with oval-shaped holes that make the extraction easier). On the bottom there are 2 holes (10 mm diameter) for the fixing to the ground through specific bolts (not included). Every element in steel EN10111DD11 is then cold galvanized and polyester powder coated with ral colors at choice.

This product is entirely made in Italy from steel subjected to an electrolytic galvanising cycle and subsequently painted with PP powders with Ral colour of your choice.

Max Dimensions:

Height: **955 mm**
Length: **150 mm**
Width: **150 mm**
Weight: **11 kg**
Capacity: **6 lt**
