PRODUCT DESCRIPTION

Designer: [Stephane Chapelet](#)

Horizon chair without backrest

The HORIZON chair is made in steel 60/10 thickness. The seat is made of 2 bent steel sheets, welded together through a continuous welding. Under the sheets 3 strong support plates, shaping the outline of the chair 30 mm h., are welded. The base of the metal structure presents 4 holes (14 mm diam.) to be fixed to the ground through specific bolts (not provided).

Weight: **31 kg**

Horizon chair with backrest

The chair is made in steel, 60/10 thickness. The seat is made of 2 bent steel sheets, welded together through a continuous welding. Under the sheets 3 strong support plates, shaping the outline of the chair 30 mm h., are welded. The backrest is fixed to the seat through 4 screws M8 and is made in steel, 60/10 thickness.

Between the chair and the backrest there's a space of 20 mm, result of specific spacers made in brushed tubular stainless steel AISI 316 12x2 mm. The base of the metal structure has 4 holes (14 mm diam.) to be fixed to the ground through specific bolts (not provided).

Weight: **54 kg**

This product is entirely made in Italy from steel subjected to an electrolytic galvanising cycle and subsequently painted with PP powders with Ral colour of your choice.

As an alternative to steel EN10111DD11, the production in corten is also available, on demand. In this case the material is treated with a specific oxidation process.

Max Dimensions:

Height seat: **450 mm**
Height backrest: **813,5 mm**
Length: **500 mm**
Width of the seat: **450 mm**
Width (with backrest): **680 mm**
