

DRINKING FOUNTAINS: DROP

| **Categories:** [PIC NIC TABLES / DRINKING FOUNTAINS](#), [URBAN DESIGN](#)

PRODUCT DESCRIPTION

The fountain DROP is characterized by a structure made in steel sheet, with a rectangular section 200x120xh905 mm. The faucet has a button with a return spring, screwed to the tube of 1 / 2" and connected to the pipe in galvanized steel. The structure is fixed through 4 screws to be inserted on holes of 12 mm diam. The tank is made in steel sheet, 20/10 thickness, and measures 600x245mm and 100 mm in depth. It is also provided with a drain hole 21 mm diam. Over the tank there's the machicolation (dimensions: 600x300 mm, 50/10 thickness), which is removable to allow the cleaning of the tank. The footprint of the fountain has dimensions 720x300 mm. On the back of the fountain there's a removable panel to allow the connection of the feed pipe.

This product is entirely made in Italy from steel subjected to an electrolytic galvanising cycle and subsequently painted with PP powders with Ral colour of your choice.
