

EXPIRED MED CONTAINERS: ECOFARM

| Categories: [EXPIRED MED CONTAINERS](#), [ECO DESIGN](#)

PRODUCT DESCRIPTION

Designer: [ECO Design](#)

Absolute safety for the user makes it easy for the operators to remove the content: these are the requirements which the containers for expired medicine designed by **LAB23** for pharmacies and hospitals meet. They are safe because they are fitted with an intrusionproof up-and-over opening that prevent users from accidentally coming into contact with the containers' content. The container is equipped with an inner bin-line holder.

This product is entirely made in Italy from steel subjected to an electrolytic galvanising cycle and subsequently painted with PP powders with Ral colour of your choice.

Size:

Height: **76 cm**
Length: **44 cm**
Width: **48,5 cm**
Capacity: **60 lt**
