

LITTER BINS: BAG BIN

| Categories: [LITTER BINS](#), [URBAN DESIGN](#)

PRODUCT DESCRIPTION

Designer: [Roberta Pastore](#)

The BAG BIN is made in steel of 20/10 thickness. The structure is made of 4 elements welded together through continuous welding. Inside the bin there is a container in steel sheet of 10/10 thickness, provided with 2 handles to help the emptying. An elastic band to keep the bag in place is optional. The bin is provided with a spring lock with triangular key. On the bottom of the bin there are 4 holes of 10 mm diam. for the fixing to the ground through specific bolts, not provided.

This product is entirely made in Italy from steel subjected to an electrolytic galvanising cycle and subsequently painted with PP powders with Ral colour of your choice.

The galvanized steel used is steel EN10346DX51D+Z and, unless otherwise stated, is not painted.

Max Dimensions:
