

LITTER BINS: CEKTA

| Categories: [LITTER BINS](#), [URBAN DESIGN](#)

PRODUCT DESCRIPTION

Designer: [Stéphane Chapelet](#)

The Cekta Bin is made in steel sheet. The structure is made in steel sheet of 15/10 and 30/10 thickness and the base is provided with a plate of 50/10 thickness with 4 holes of 11 mm diam. for the fixing to the ground through specific bolts (not provided). Inside there is an element in galvanized steel for the insertion of waste bag. To empty the bin, there is a door with a triangular key lock placed on the front part.

This product is entirely made in Italy from steel subjected to an electrolytic galvanising cycle and subsequently painted with PP powders with Ral colour of your choice.

The galvanized steel used is steel EN10346DX51D+Z and, unless otherwise stated, is not painted.

Max Dimensions:
