

PLANTERS: AVEO

| Categories: [PLANTERS](#), [URBAN DESIGN](#)

PRODUCT DESCRIPTION

Designer: [Stéphane Chapelet](#)

The AVEO planter is made in hypergranite, a Fiber-reinforced material made in polyester resin and marble powders, particularly resistant to wear and atmospheric agents. Hypergranite is available in many different colours.

In the middle of the bench, inside the oval-shaped hole, there is a planter made through the calendaring of the steel sheets of 30/10 thickness, shaping the walls, and a bottom of 30/10 thickness provided with a drain pipe. On the bottom 4 screws M16 are welded for the insertion of specific bolts (not provided) to help lift up the tray in steel.

Steel EN10111DD11 is used for the realization of this product made in Italy and all the elements in this material, after all the different stages (cutting, bending, welding), are treated with electrogalvanizing according to the UNI regulations and are later polyester powder-coated with RAL colours at choice.

Max dimensions:

Height: **504 mm**
Length: **1417 mm**
Width: **1041 mm**

Weight of steel: **25 kg**
Weight of hypergranite: **144 kg**
Total weight: **170 kg**
Planter Capacity: **105 lt**

Material: [Hypergranite](#)
Available also in the **UHPC** version.
