

RECYCLING BINS: MINILLERO

| **Categories:** [RECYCLING BINS](#), [URBAN SMART LIVING](#), [URBAN SMART LIVING](#)

PRODUCT DESCRIPTION

Designer: [GIBILLERO Design](#)

MINILLERO is a useful basket for separate waste collection, divided into 4 compartments with 4 more interior containers holding lot.

On the lateral surface, made of galvanized steel, there are images related to the differentiation of the content; the images are available on request. The shape is sleek and soft thanks to calendering and edges on the top cover there are colored rings.

The basket is available in monochrome or in 4 colors.

In size and shape MINILLERO is meant to be used both outdoors and inside of public facilities such as offices or malls or in private homes.

Also available with top cover and in the version with two compartments.

MINILLERO 4 compartments: 570 x 570 x h 735 mm - load 140 lt (4 x 35 lt)

MINILLERO COVERED 4 compartments: 570 x 570 x h 940 mm - load 140 lt (4 x 35 lt)

MINILLERO 2 compartments: 570 x 305 x h 735 mm - load 70 lt (2 x 35 lt)

Materials: [stainless steel](#)
