

TABLES: CORAL

| **Categories:** [PIC NIC TABLES / DRINKING FOUNTAINS](#), [URBAN DESIGN](#)

PRODUCT DESCRIPTION

The CORAL TABLE is made in steel, 30/10 thickness.

All the metal parts are characterized by a coral-like texture. On the lower part of each leg of the table, an ellipsis-shaped plate (30/10 thick), with a hole of 11 mm diam. for the fixing to the ground through bolts (not provided), is welded.

This product is entirely made in Italy from steel subjected to an electrolytic galvanising cycle and subsequently painted with PP powders with Ral colour of your choice.

As an alternative to steel EN10111DD11, the production in corten is also available, on demand. In this case the material is treated with a specific oxidation process.

Max Dimensions:

Height: **450 mm**

Length: **530 mm**

Width: **530 mm**

Weight: **14 kg**
