

BENCHES: VAGUE BENCH

| Category: [BENCHES](#)

PRODUCT DESCRIPTION

Designer: **Stéphane Chapelet**

Our VAGUE bench is made of HPRC®, a composite, malleable and highly performing material that allows the production of elements of any shape. HPRC® is characterized by a very high mechanical resistance (traction / compression / bending) and by waterproofing, it is highly resistant to shocks and atmospheric agents (salt, smog, ice, sand, etc.). The smooth and at the same time material finish and the very high ability to disperse heat / cold make it a very comfortable material even in extreme climatic situations. An anti-graffiti material and, if necessary, repairable thanks to the repair KIT supplied on request. An ECOLOGICAL material, produced with at least 30% recycled and 100% recyclable material, which meets the minimum environmental criteria (CAM) dictated by current regulations.

Dimensions

Height: **450 mm**
Length: **2500 mm**
Depth: **660 mm**

Materials: **HPRC**
